

BROKEN FINGER

No. of Scouts: 2

Scout One: Please [Name], you know your first aid; I need you to help me.

Scout Two: I'll see what I can do. What's the problem?

Scout One: When I touch my nose (touch nose) it really hurts; when I pinch my ear (pinch ear) it's so painful; when I poke my tummy (poke tummy) I feel like I want to scream. What do you think is wrong with me?

Scout two looks at scout one's nose, looks in his ear and stares at his tummy.

Scout Two: I have no idea what the problem is so I would suggest that you urgently go to the sick bay and ask for a doctor.

(Scout one leaves the stage and after a short while returns.)

Scout Two: Ah, there you are. Did the doctor work out what the problem was?

Scout One: Yes. He said that I have broken my finger.
